STATE OFFICIALS DENOUNCED BY I. W. W. WORKER

Services Over Hillstrom's Remains Bring Threats From Brotherhood

[Associated Press by Federal Wireles]
SALT LAKE CITY, Utah, Nov. 22.—The state of Utah will have occasion to remember well the day on which the executioners shot Joe Hillstrom, declared one of the orators in the funeral services held over the body of the executed murderer, Joseph Hillstrom, here yesterday. There were several speakers, each of whom condemned the execution and denounced Governor Spry and other state officials, but the services included no religious exercises whatever.

The pall bearers were girls, six of them, wearing red sashes, the color of the I. W. W., over white dresses. One of the six pall bearers was the sweet heart of Hillstrom.

The body was shipped to Chicago, where it will be taken in charge by William D. Haywood, general organizer of the I. W. W. A great demonstration is to be made when the body is paraded through the streets of Chicago on Thursday for burial.

Yesterday afternoon in Seattle a body of 400 I. W. W. members, with banners, paraded the streets, carrying an empty coffin, on which was printed the name "Hillstrom." A mass meeting was held last night, at which the execution of Hillstrom was denounced as the culmination of a capitalistic plot against a leader of workingmen. The police were present at the meeting in force, but there was no disorder.

RESCUE EIGHTY BEEF QUARTERS

A thrilling rescue, not of passengers, but of 80 quarters of beef, was made by the inter-island steamer Mauna Kea at Lahaina, when the steamer transferred the beef cargo from the schooner Makana, owned by Dr. J. H. Raymond, a Maui man. The Mauna Kea arrived with the meat

While running from Maui to Honolulu the Makana ran into rough weather off Olawalu and sprang a leak forward. She made for Lahaina, and anchored at her usual mooring, offshore, considerably down by the head.

At this stage of affairs her engines broke down. This put both the pumps and refrigerating machinery hors de combat. With the latter out of commission the beef soon would have spoiled. Water leaked in faster than the crew with hand-pumps could pump it out.

The Mauna Kea, on arriving at Lahaina, was appealed to and took off the Makana's beef, 80 quarters, before the latter's ice house was flooded. This lightened the Makana greatly, so that she is no longer in danger of sinking.

LABORITES WANT EXCLUSION MORE STRICTLY ENFORCED

[Associated Press by Federal Wireles]
SAN FRANCISCO, Cal., Nov. 21.—A resolution calling upon the federal government to take steps to more effectively enforce the laws against the introduction of Asiatic labor into the United States was passed yesterday by the delegates at the annual convention of the American Federation of Labor.

CHARLTON LIBERATED FROM ITALIAN PRISON

[Associated Press by Federal Wireles]
COMO, Italy, Nov. 28.—Porter Charlton, the young American convicted a few weeks ago of the murder of his bride while visiting Lake Como on their honeymoon trip, was released from prison yesterday, having completed the term to which he was sentenced. The sentence was for imprisonment for two years, but as Italian law deducts from the sentence the period spent in jail while awaiting trial, the actual time served by Charlton is less than two months. He was convicted of "unpremeditated murder," the maximum term for which is five years.

AVIATOR NILES EN ROUTE FOR JAPAN

(By Wireles to Hawaii Shipno.)
SAN FRANCISCO, Cal., Nov. 21.—Yoranda, son of Marquis Riarin and nephew of Prince Tokugawa, is a passenger aboard the Shinyo Maru, which sailed for Yokohama yesterday. Another passenger of note is Aviator Niles, who will make a series of flights in Japan, one in Tokio, in the presence of the emperor and the imperial household.

Lord Kitchener once assisted at a Drury Lane rehearsal in correcting the military evolutions performed upon the stage.

Attempt Is Made To Kill J. D. Archbold With Bomb

John D. Archbold, president of the Standard Oil Company of New Jersey, the main Rockefeller corporation; also a view of the company's offices at 26 Broadway.

[Associated Press by Federal Wireles]
TARRYTOWN-ON-THE-HUDSON, N. Y., Nov. 22.—What was evidently an attempt to assassinate John D. Archbold was frustrated yesterday by the accidental discovery of the bomb with which it had been expected to kill him. The bomb was skillfully

CARRANZA WILL GIVE PROTECTION TO INVESTORS

Government Takes Over Control of Saloons in Capital, and Number Limited

[Associated Press by Federal Wireles]
WASHINGTON, D. C., Nov. 22.—The Mexican agency here, officially representing the Carranza government, issued a statement yesterday that the provisional government is taking steps to protect future investors in Mexico, and is also taking steps to handle the saloon situation in the Mexican capital.

The saloons of the City of Mexico have now all been taken over for control by the civil government, the statement said. The fact that the Carranza government is taking steps to protect future investors in Mexico, and is also taking steps to handle the saloon situation in the Mexican capital.

BODIES RECOVERED FROM WASHINGTON MINE

[Associated Press by Federal Wireles]
SEATTLE, Wash., Nov. 22.—The miners engaged in the work of reopening the lower gallery of the Ravensdale mine, in which a dust explosion wiped out the shift at work there last week, reached the end of the drift yesterday and brought out the bodies of 10 miners. These are the last of the bodies of the 13 men who were killed.

298 VESSELS SUNK, IS GERMANY'S CLAIM

BERLIN, Germany.—"Competent German authorities deny the official announcement made in London on October 20 that only 183 British merchant vessels and 175 British fishing vessels had been sunk by submarine up to October 14," says the Overseas News Agency.

"These authorities state that up to the middle of October, 298 English trading vessels had been sunk and that up to September 14, 275 fishing vessels had been destroyed as shown by the statements published from time to time in English newspapers. These reports do not disclose all the facts and the actual number of ships sunk in reality is still larger."

SUBMARINE WARFARE.

The era of submarine warfare began in February, 1864, when the United States sloop Housatonic was sunk by an underwater craft by means of a torpedo at the end of a spar projecting from it.

Senator Work of California announced that he would ask Congress to abolish the District of Columbia.

GREGORY ORDERS CONSPIRATORS HUNTED DOWN

Attorney-General Asks State Officials to Get Busy on Trail of Plotters

[Associated Press by Federal Wireles]
WASHINGTON, D. C., Nov. 22.—Yesterday, Attorney-General Gregory issued an official announcement of the intent of the United States to employ all the resources at its command for the apprehending and punishing of the ones guilty of the attempts to destroy factories, instigating the various labor disturbances or doing any other act of violence against any American industry.

The attorney-general also calls upon the officials of the various states to exercise the utmost vigilance in punishing the perpetrators of acts against which the federal statutes may not apply.

IN WAR ARENA

DOGS STAND GUARD ON GERMANY'S PRISONERS OF WAR.

LONDON, Eng., Nov. 21.—That the prisoners in at least one of the German prison camps where some British are confined are not well treated and have not been furnished with sufficient clothes for the cold weather they are now experiencing are statements officially made by James W. Gerard, the American ambassador at Berlin, a part of whose duty it is to make periodical inspection of the prison camps and report upon them to the British government.

The report which has just been made by the American ambassador upon the camp at Wittenberg, where some 4000 prisoners are kept, has been made public through the British press bureau.

Ambassador Gerard is quoted as saying in this official report: "The impression which the prison camp at Wittenberg made upon me is more unfavorable than I had expected prior to my visit. There are 4000 prisoners in confinement there, of whom 278 are British. I found that the men were insufficiently clad and were suffering from the cold."

"The prisoners complained to me that the German guards brought dogs into the camp at night, against the attacks of which the prisoners had no protection. Cases where the dogs had torn the clothes off the prisoners were related."

"The Germans admitted that they used dogs to help guard the camp, asserting that the use of dogs was necessary for the preservation of order."

CANADA WILL RAISE FIFTY MILLION WAR LOAN.

OTTAWA, Ont., Canada, Nov. 22.—Sir George Foster, the Canadian minister of finance, announced yesterday that a call for a domestic loan of \$50,000,000 will be issued this morning and that the subscription lists would be opened at once.

The Canadian government expects to experience no difficulty in floating the loan among Canadians, and the lists will be open only until the end of this month.

The security offered is 5 per cent government bonds, maturing in 1925.

ZEPPELIN BLOWS UP, KILLING MANY SOLDIERS.

COPENHAGEN, Denmark, Nov. 21.—An accident which destroyed another German Zeppelin, killing also a number of soldiers, is reported to have occurred on Sunday last at Tondern, according to reports that have reached here. The giant aircraft was being inflated in its shed, when, from some unknown cause, the gas took fire and the Zeppelin and shed were ripped to pieces in the resulting explosion. Eight soldiers at work around the air machine were either killed or injured.

ANCONA STORY GETS GRIM CONFIRMATION.

TORONTO, Italy, Nov. 21.—A grim reminder of the tragedy enacted in the Tyrrhenian sea, when the liner Ancon was sunk, with the Austrian submarine which had destroyed her firing upon the lifeboats, came to shore here yesterday. This was one of the Ancona lifeboats, containing 13 dead bodies. Some of the bodies carried shell wounds and the boat itself showed where it had been hit.

SERBS INFLECT SEVERE LOSSES ON INVADERS.

PARIS, France, Nov. 22.—While the condition of the Serbians is extremely serious, the situation appears to be not so desperate as the reports of the past three days have indicated. The Serbs continue to hold Monastir and a British force has reached that city, sufficient, it is believed, to hold the Bulgarians in check until other reinforcements can arrive.

In Central Serbia, in the Nish district, where a force of Serbians are holding out, the Bulgarians have been defeated again in a battle at Leokovatz, which has raged for several days. Announcement of this Serbian victory was made yesterday by the Serbian legation here, which states that the Bulgarian losses were enormous, many regiments being completely wiped out. The Serbians are pursuing the routed invaders, taking no prisoners.

The Montenegrin consulate here announces that a portion of the North

Felice Lyne Is Warmly Received In New York

Miss Felice Lyne, coloratura soprano, and a favorite in Honolulu.

Felice Lyne, the young American prima donna who was enthusiastically received here a few months ago at two concerts, is winning praise from the New York critics in what is her first serious work before metropolitan audiences. Singing with the Boston Grand Opera Company, which has opened a notable engagement at the Manhattan Opera House, Miss Lyne has scored a consistent success. The New York World of October 26, the morning after the Boston organization opened its concert, said in part:

"It was the Boston Grand Opera Company and the Paviola Ballet Russe, with Max Rubinstein as impresario, that gave the first performance of serious opera in this auditorium since the Metropolitan Opera House directors paid more than \$1,000,000 to interest Hammerstein in other fields."

"Favorable reports about the new organization from other cities brought forth a distinctive operatic audience, curious to discover the artistic rank attained and bubbling with the desire for the first morsel of the season, which proved to be Auber's 'La Muette di Portici,' not given here for a quarter of a century."

"That it was a welcome morsel seemed apparent after the fourth act, when numerous curtain calls rewarded the singing of Giovanni Zenatello and the realistic pantomining of Anna Pavlova."

"As a medium for the combined endeavors of an organization strong in the ballet section and having so illustrious an artist as Paviola, 'La Muette di Portici' possesses unquestioned advantages, just as it discloses weaknesses from the purely operatic side."

"Still, as a revival, it must attract serious attention and no slight commendation to the management which provided such realistic scenery as that designed and executed by Josef Urban, an artist who sees and puts into realistic form those elements that make for setting that are seemingly real."

"Felice Lyne, the American coloratura soprano, who went to Hammerstein's London Opera House and made a furor after appearing at the Manhattan in 'Hans the Plute Player,' was making her first appearance in serious opera in New York. She was well received and sang with confidence and artistic certainty, even though her voice lacked color and proper resonance in the highest notes. Miss Lyne is a useful and reliable singer, whose future will be worth watching."

Serbian army has retreated into Montenegro and joined the Montenegrins at the Lim river, where they are strongly entrenched. This line was attacked fiercely on Friday, but the assault was repulsed.

BERLIN HEARS OF ITALIAN REVERSE IN TRIPOLI.

BERLIN, Germany, Nov. 22.—Overseas despatches from Constantinople announce that the Italians have been severely defeated in Tripoli by Arabs, who wiped out an Italian detachment and captured 22 field guns and 10 machine guns.

It is rumored that there has been a serious mutiny aboard one of the Russian men-of-war at Helsingfors, Finland. According to the reports, many of the mutineers were shot.

SUBSTITUTE FOR BASHAM'S MIXTURE

In Treatment of Bright's Disease.

The Pharmacopoeia has had nothing to add directly upon renal tissues and reduce albuminuria in Bright's Disease. (Tyson on Bright's Disease, p. 156.) Hence, Basham's Mixture, a mild diuretic tonic, has been given, often with results in first stages, but in chronic forms with universal failure.

Note the new approach. Instead of stimulating the kidneys, results are now being had through a mild infusion acting directly upon and opposing granulation in the kidneys and strengthening the secreting renal cells.

As a natural consequence albumin is commonly absorbed and casts decline, urinalysis having established the results in several thousand cases, many involving dropsy and some tapping. Analytical results cannot be questioned. The presence of albumin is a PHYSICAL FACT and its disappearance is a FACT IN PHYSICS.

The new agent, Fulton's Renal Compound, is a vegetable infusion (see formula with bottle). The motive being to oppose renal degeneration, the heart agents, eliminants, etc., given by physicians do not conflict, being continued if necessary. So mild that children take it. Thoroughly digested and assimilated. At Honolulu Drug Co., local agents. Literature mailed. John J. Fulton Co., 85 First St., San Francisco. Some analytical results can usually be looked for the third week.—ADV.

Three negroes entered a store in Kansas, Kan., held up the proprietors, and escaped with \$1700.

CALIFORNIA AND ARIZONA SHAKEN BY EARTHQUAKE

Extinct Volcano In Yuma District Comes to Life; No Damage Reported

[Associated Press by Federal Wireles]
SAN FRANCISCO, Cal., Nov. 21.—A series of sharp earthquake shocks was felt through the southern and southeastern sections of this state and Arizona last night, the seismic shudders centering in the Yuma district of Arizona. The earthquake was accompanied by evidences of volcanic action, these being reported from Yuma and El Centro.

The Yuma despatches state that a previously extinct crater, known as Old Volcano, within the rim of which lies a body of water called Volcano Lake, has begun to emit smoke. This crater is in Mexico, just across the line and south of Andrade, Cal.

From El Centro come reports of an upheaval, accompanied by clouds of white smoke.

Reports from the Imperial Valley announce that the quake was felt strongly there, although no damage has been reported from the valley or from the other districts where the disturbances have been apparently the strongest.

JAPAN EMPRESS IN GOOD HEALTH, SAYS OFFICIAL STATEMENT

[Associated Press by Federal Wireles]

TOKIO, Japan, Nov. 22.—Because persistent rumors regarding the health of the empress have been circulated during the past two weeks by alarmists, a semi-official statement was made by the imperial household office last night, announcing that the empress is in perfect health.

The empress had been expected to give birth to a child nearly a month ago, her state of health preventing her from being present at or taking any part in the coronation ceremonies at Kioto.

The long-delayed announcement of her accouchement is responsible for the many rumors that her condition was abnormal and critical.

FAIR PRESIDENT ASKS TOAST FOR WILSON

(Special Cable to Nippon Jiji)

SAN FRANCISCO, Cal., Nov. 20.—Representatives of participating countries met at the Japanese pavilion on Thursday evening. President C. C. Moore of the exposition asked the representatives to toast President Wilson on December 4, the last day of the exposition. President Moore said that this should be done in recognition of the efforts the president has made to preserve universal peace.
